

ALIENS ELIGIBLE FOR LEAVES UNDER NEW REGULATIONS

In broad and general terms Dillon Myer, WRA National Director, sketched to Temporary Rivers Community Councils, the "why" and "hows" of the relocation policy for the evacuees during his recent visit to the colony. Myer stressed the point that the WRA is putting emphasis on relocation.

The leave regulations now make aliens as well as citizens eligible for indefinite leaves. Its provisions are that anyone can make application, if (1) he has a place to go and has means with which to take care of himself; (2) he has reasonable assurance that the community will accept him; (3) his records are clear with the F.B.I. and other agencies; (4) he keeps the WRA informed regarding his residence.

Supply Shortage Delays Repairs

Only absolutely necessary repairs will be made by the Canal Shoe Repair Shop as complete supplies have not been received as yet. Manager Al Hayashi announced supplies will arrive the latter part of next week at which time colonists may request for repair work.

Shop hours are 8-11 a.m. and 1-4 p.m. daily except Sundays. On Saturdays, it will be open in the mornings.

University Club

In a meeting held last week, the University Club elected Ichi Imamura as chairman; vice chairman-Gengi Kawamura; 1st vice-Mendel Lieberman; recording secretary-Ida Otomo; corresponding secretary-Shizu Abe; treasurer-Francis Onoda; program-Mas Yoshitsu; and publicity-Shizu Abe.

Maeyama, Sekino Harvest Queens

A combined throng of six hundred dance lovers jammed the coronation ballrooms of Butte and Canal to pay tribute to Queens Hideko Maeyama and Chiye Sekino Wednesday night in the Farm Management sponsored "social of the year." David A. Rogers, farm division head, bestowed the symbol of regality to Butte's Harvest Queen, while Personnel Director Kay Nobusada paid like homage to Canal's fairest.

Reigning over the entire Thanksgiving Day program, the Queens made their grand debut to the public in the parade riding on the Farm Management floats. Queen attendants included Misses Ruthe Araki, Masako and Toriya Yamaguchi, and Toshiko Masumoto from Butte; Irene Takayama, Janet Miura, Claire Fujishige, and Peggy Tagami from Canal.

NUMERICALLY MALES SUPERIOR

According to a census report released by the housing department, the males still outnumber the females by a narrow margin. There were 2,785 males in Canal and 4,437 in Butte, while the number of females in Canal was 2,338 and 3,658 in Butte, as of November 15. However, this census report does not include those who did not register upon arrival.

GASOLINE PUMP

A new gasoline pump and tank, with a capacity of 12,000 gallons, will soon be installed near the motor pool office in block 18. This tank will replace the present one which has only a 550 gallon capacity.

DOCUMENTARY MOVIES TAKEN

Francis Stewart, official WRA photographer for all relocation centers, has been filming 16 mm. movies and stills for the historical documentation of center scenes and activities including the Harvest Festival during a two-day assignment here.

The 16 mm. movies will be released through the Office of War Information. The OWI last week announced the national release of a film short "Japanese Relocation," telling the story of the moving of 100,000 persons of Japanese ancestry from the west coast to inland centers in Arizona, Wyoming, Utah, Colorado, Arkansas, Idaho and eastern California.

HOLIDAY EXHIBITS CLOSE TONIGHT

Harvest festival displays at block 13 will end at 11 tonight after a 3-day showing. They are located at the following buildings: Farm Management-rec. hall 13, CAS, Ground Dept.-13-11-D, Boys Club-washroom, Buddhist Church-13-14, Women's Club-13-13-A & B, Adult Education-13-13-D, elementary school-13-1-B, C, D, and 2-D, high school, home economics, art, agriculture and shop classes in respective class rooms.

Sewage Plant Nears Operation

The Butte sewage disposal plant, located northwest of the city, will commence operation Monday if present plans materialize without a hitch, disclosed firman Brown, senior engineer.

Brown estimates that the plant will take a week to test.

Mrs. Kiyoko Akazawa departed last week for Mineral Springs, Texas, to join her husband, Pvt. Akazawa.
